## MCR Federal Wins Multiple Categories for GSA OASIS Contracts

McLean, VA, July 7, 2014 – [MCR Federal, LLC](#) (MCR), a premier provider of Integrated Program Management services, has been awarded four One Acquisition Solution for Integrated Services (OASIS) contracts by the General Services Administration (GSA) to provide a wide range of complex professional services to federal agencies.

OASIS SB is a 10-year, multi-billion, multiple award, indefinite delivery, indefinite quantity (IDIQ) contract with unlimited ceiling that all federal government agencies can use to buy professional services, including management and consulting, engineering, logistics, and financial service. Under OASIS Small Business (OASIS SB), MCR will compete to deliver professional services in three major pools: Pool 5A for Aircraft Parts, and Auxiliary Equipment, and Aircraft Engine Parts; Pool 5B for Space Vehicles and Guided Missiles, their Propulsion Units, their Propulsion Units Parts, and their Auxiliary Equipment and Parts; and Pool 6 for Aircraft. Under OASIS Unrestricted (OASIS UNR), MCR will compete to deliver professional services in Pool 6 which is mapped to NAICS code 541712 (1,500 employees).

“MCR is very proud to be selected as a multiple winner on the innovative GSA OASIS contracts,” MCR President Vincent J. Kiernan said. “Over the past thirty-seven years in business, we have worked very hard to provide the highest quality professional services support for the federal government. We look forward to continuing this as we move forward with OASIS.”

OASIS provides flexible support for Commercial and Non-Commercial requirements, which means any contract type may be utilized. Agencies can use OASIS SB to obtain professional services support through the lifecycle phases of their programs, such as requirements analysis, concept development, planning, acquisition, research and development, test and evaluation, implementation, and operations and maintenance. “OASIS is a great win for MCR,” MCR Vice Chairman Neil F. Albert said. “Our continued growth depends on our ability to play as a prime contractor in as many markets as we can penetrate. OASIS gives us that edge.”

### **About MCR**
